

# FAST-EST - PRINT ESTIMATING

**FAST-EST is just estimating, the fastest estimating tool** – a patented technology – for any print job, including custom print & wide format products. Also the set-up and setting routine is the fastest.

FAST-EST eliminates:

1. The estimating bottleneck. Anyone at the Print shop can do an estimate in a few seconds and instantly serve the customer.
2. The nerve-wrecking, MIS set up process.

## TYPICAL USAGE

- A **handy calculator** when doing quotes/ biddings.
- When **checking prices for customers on the fly or** on the phone.
- **Cost controller** for price list products.

## FEATURES

- √ Custom job estimates in seconds – automatically from a job specification
- √ Automatic imposition/layout
- √ Production optimization
- √ Print out cost & price calculation
- √ Print out quote/order
- √ Super easy settings of resources.
- √ API for easy integrations
- √ Add on: Large Scale Estimator – many jobs at once (max 5000 jobs)

## SUBSCRIPTION TERMS & PRICING

- A monthly flat fee, paid quarterly
- End agreement at any time
- Free number of users is included
- No set-up fees
- The fee is based on the number of employees at the company in total.

1-14  
employees  
\$145

15-49  
employees  
\$265

50-249  
employees  
\$435

>250  
employees  
\$580

## UPGRADE

FAST-EST can very easily be upgraded to a full quote and order management solution – The SALES-MASTER with many useful add-ons like scheduling, inventory, gang-run, invoicing, and multiple integrations.

The PRICER for price list products fits well together with FAST-EST – the two will give you the complete range of sales prices for both fixed priced products and custom jobs.

## NUMEROUS QUOTES IN NO-TIME

FAST-EST automatically:

1. Collects print job specification
2. Makes the production route decision
3. Provides best cost- and sales price.

Play around with the specs and get the cost/ price and the production route, for each job option instantly.

## TO SET UP FAST-EST

1. Go to [arifiQ.com](http://arifiQ.com)
2. Submit the set-up request
3. Receive and submit the set-up form and subscription agreement.
4. Get your Fast-Est site
